▦ Microsoft

AZURE CSP BENEFITS

- ✓ Microsoft Azure Access
- ✓ O365 Managed Subscriptions
- ✓ Client Maintains Control of their Azure Tenant
- ✓ Consolidated Billing
- ✓ Azure Architectural Services
- ✓ Ongoing Support

SAYERS CORE CAPABILITIES

- ✓ Infrastructure
- ✓ Cloud Security Solutions
- ✓ Business Continuity
- ✓ End User Compute

SAYERS CLOUD SERVICES

✓ Cloud Assessments

Whether you're currently in the cloud or looking to migrate, we can evaluate your current infrastructure to identify gaps and adequately prepare for a more secure and agile cloud environment.

✓ Architectural Design

Access to our Azure certified architects provides you the resources to design secure, resilient, and efficient Azure environments.

✓ Deploy & Migration

Non-disruptive deployment into the cloud requires experience and expertise. A well-mapped migration, executed by specialized engineers, ensures success of your deployment as well as an engineering team that is ready and able to provide the ongoing support required.

✓ Support Services

The same team of experts that are involved in architecture and deployment is also available for ongoing support. With 24/7 support and access to hands-on training, Sayers offers extensive front line support in addition to a wealth of other learning resources.

Sayers utilizes a consultative approach focused on the unique challenges of your organization. Our process is proven to achieve measurable and sustainable solutions built around you. Regardless of where you are in your cloud journey, we have resources ready to help you deliver results at any stage.
